PRESS RELEASE

Manutencoop Facility Management: two framework agreements entered into with Consip S.p.A.

- **The framework agreements, each with a two-year duration, concern two lots of the "Mies 2" tender procedure relating to the awarding of an integrated multi-services technology contract, including the supply of energy for buildings used by certain public health entities;**
- **The individual contracts governed by such framework agreements that will be entered into with the public entities can have a duration of 5 to 7 years, subject to a maximum value of services to be provided by MFM equal to Euro 209 million;**
- **The execution of such framework agreement demonstrates once again MFM's competitiveness and its dynamism with respect to public tenders and confirm, in the Company's view, its full legitimacy to be awarded tenders organized by the Italian Public Administration.**

Zola Predosa (Bologna), 20 September, 2017 – **Manutencoop Facility Management S.p.A.** ("**MFM"** or the **"Company"**), head of the leading Italian group active in the integrated facility management, announces that, on the date hereof, the Company has entered into two framework agreements concerning two lots of the "Mies 2" tender procedure relating to the awarding of an integrated multi-services technology contract, including the supply of energy for buildings used by certain public health entities.

The framework agreements have a two-year duration whereas the individual contracts governed by such framework agreements that can be entered into by the public entities during such period can have a duration of 5 to 7 years, at the discretion of the individual entity, starting from the activation of the individual supply, subject to a maximum value of services to be provided by MFM for the relevant period equal to Euro 209 million.

Therefore, once the individual contracts governed by the framework agreements will be entered into, both such framework agreements will generate revenues for the Group, contributing to MFM's broad public contracts portfolio and backlog (*portafoglio totale commesse e riaggiudicazioni*).

The aforementioned framework agreements concern:

- Calabria and Sicily (lot no. 12 – *Lotto Ordinario*);
- Veneto, Friuli-Venezia-Giulia, Trentino-Alto Adige and the following provinces of the Lombardy region: Bergamo, Brescia, Lecco, Como and Sondrio (lot no. 14 – *Lotto Accessorio*).

The execution of such new framework agreements represents an additional illustration of MFM's continuing ability to participate in new public tender procedures arranged by Consip and to be awarded the related public contracts as well as, in general, to participate in any public tender procedure and that any other on-going tender procedures remain completely valid.
