PRESS RELEASE

The Rekeep Group enters the Uzbek market, finalising a consortium contract for the design, construction, and operation of a hospital under a Public-Private Partnership model

- **The contract has an overall duration of 20 years and a value attributable to the Group of approximately Euro 80 million;**
- **The Group, through its subsidiary Rekeep World, will provide maintenance services, plant management services and medical equipment maintenance, ensuring the highest standards of safety and clinical quality**
- **The award marks a new major milestone in the Group's international growth, strengthening its expansion strategy in key foreign markets such as Uzbekistan and confirming the effectiveness of the PPP model.**

Zola Predosa (Bologna), 5th May 2026 – The **Rekeep Group** (**"Rekeep" or the "Group"**), the leading Italian group operating in the Integrated Facility Management sector, announces the finalisation, through its subsidiary Rekeep World, of a consortium contract for the design, construction and operation of a hospital in Uzbekistan, in the Fergana region.

The contract, awarded by the Ministry of Health of the Republic of Uzbekistan with the support of the country's Ministry of Economy and Finance, has a duration of **20 years** and a total value attributable to the Group of approximately **Euro 80 million**.

The consortium that was awarded the concession, following a tender process in which 10 international groups of companies took part, comprises, in addition to Rekeep World, the Saudi company Vision International Investment Company and the Uzbek firm Construction Mechanical Electricc LLC Fe.

Under the contract, the Rekeep Group will provide, without any equity investment, maintenance services, plant management services and medical equipment services, ensuring the highest standards of safety and clinical quality. The provision of these services is scheduled to begin in 2029, upon the expected completion of construction works.

The overall project involves the construction and operation of the **new multidisciplinary hospital in Fergana under a Public-Private Partnership (PPP) model**. The new facility will have a capacity of approximately **800 beds** and will be equipped with modern medical technologies in line with the highest international standards. It will replace five currently operating healthcare facilities, improving resource efficiency, service quality and patient access to advanced medical treatments, including cardiac surgery, neurosurgery and organ transplants.

The operation represents a further significant milestone in the Group's international growth, thereby strengthening its expansion strategy in key markets such as Uzbekistan, particularly within the healthcare sector. The new hospital is, in fact, a pilot PPP project in the healthcare sector, designed to establish a successful, replicable model for the development of modern medical complexes in other regions of the country.

Claudio Levorato, Chairman of Rekeep S.p.A., commented: "*Taking part in this major project represents a significant milestone for Rekeep in the international healthcare sector and marks the Group's entry into a fast-growing market such as Uzbekistan, which is set to see significant investments in the modernisation of healthcare facilities in the coming years. The project also serves as a further exemplary model of Public-Private Partnership, enabling the provision of high-quality hospital services to the population, supported by advanced technologies, whilst simultaneously enhancing private investment through efficiency and quality in service management*."

Rekeep S.p.A.

Rekeep S.p.A. is the leading Italian operator and one of the main European players in the Integrated Facility Management sector, i.e., it manages and provides integrated services targeted at properties, the environment and in support of healthcare services. From plant management to cleaning, from green care to maintenance and energy retrofit of buildings, to specialist work for clinics and hospitals (laundering and sterilization), Rekeep provides a wide range of ancillary services to the core business of large private groups, public entities and healthcare facilities. Building on its know-how in the energy field, it has also been operating for years in the area of energy retrofit of properties, providing its customers with solutions for reducing emissions and consumption. Rekeep's headquarter is located in Zola Predosa (Bologna), operating offices in Poland, France, Portugal, Middle East and Turkey, and employs approximately 28,000 people in Italy and abroad.
