PRESS RELEASE

Manutencoop Facility Management S.p.A. has been awarded two lots of the Consip "Mies 2" tender for the assignment of the Integrated Technological Multiservice (*Multiservizio Tecnologico*) agreement for the supply of energy for buildings in use by the Public Health Administration (*Pubbliche Amministrazioni Sanitarie*)

- The general agreement (*convenzione*) provides for a five/seven years term for the individual agreements (*singoli contratti attuativi*) implementing the general agreement and sets €209 million supply ceiling with respect to MFM's two lots.

Zola Predosa (Bologna), 3 October 2016 – **Manutencoop Facility Management S.p.A.** ("MFM") leader of the main Italian group active in the integrated facility management, announces that, in the context of the second edition of the open public tender procedure for the assignment of an Integrated Technological Multiservice agreement for the supply of energy to the buildings in use, in any capacity, by the Public Health Administrations (so called "Mies 2" tender), has been awarded two lots of the tender called by Consip S.p.A. ("Consip"), the central purchasing agency for purchases by the Public Administration.

In the context of the two awarded lots, MFM will act as the leader and representative (*mandataria*) of a Temporary Association of Companies ("ATI"), of which it will hold 85% of the quotas.

The individual implementing agreements (*singoli contratti attuativi*) will have a term of five/seven years, depending on Public Health Administrations decisions, starting from the activation of each supply , and will establish a supply ceiling of €209 million over the life of the agreement with respect to MFM's two awarded lots.

As with all Consip general agreements (*convenzioni*), the award of the lots does not constitute a purchase from the supplier, but Consip will execute an agreement with the successful tenderers (*convenzione con gli aggiudicatari*), on the basis of which, each public administration will be able to issue supply orders and sign the related implementing agreements in order to meet any of its needs at the quality and price terms awarded.

Non-successful bidders have 30 days from the date of the award to file any appeal of the awards before the administrative courts.

Manutencoop Facility Management S.p.A.
The Manutencoop Facility Management S.p.A. Group ("MFM") is the leading Italian operator and one of the main European players in the Integrated Facility Management sector, i.e. it manages and provides integrated services targeted at properties, the environment and in support of healthcare services. Specifically, the services provided by the MFM Group are divided into two main business areas: 1. **Integrated Facility Management** – property management and maintenance services (environmental hygiene, technical and maintenance services, landscaping, logistics, auxiliary services, heat management, lighting, document management, fire prevention and video surveillance systems) delivered also through specialised companies; 2. **Laundering & Sterilisation** – linen rental and industrial laundering services and linen and surgical instrument sterilisation for healthcare operations, delivered through the subsidiary Servizi Ospedalieri S.p.A.. MFM's headquarters is located in Zola Predosa (Bologna), it has offices all over Italy and employs more than 20,000 people throughout Italy.
