**The Italian Supreme Court rejects home detention measures for MFM CEO and two other executives**

Following on from the previous communications made on May 21 and August 4 of this year the present communication announces that the Italian Supreme Court, in a decision on December 2, 2014, granted the appeal filed by the counsel of Manutencoop Facility Management CEO and two Servizi Ospedalieri executives, remanding it now back to a different chamber of Milan's Appellate Court, thus reversing for violation of law the decision for pre-trial home detention issued by the Milan Appellate Court.
